For the first time in ages, you're okay with being late. You're okay with over-sleeping. But when all that over-sleep leads to you waking up in the middle of a too-realistic nightmare, it's time to get up and outta there. The title-less game casts you as one of a few escape-artists, an over-sleeper seeking to escape from a featureless, abandoned, and dream-like environment... by any means necessary. The game is broken into a number of chapters/sections that provide different gameplay experiences, from a typical escape-the-room first-person puzzle game to a point-and-click adventure, and even a side-scroller platforming shooter. Chapter 1: Evacuation Time Chapter 1: Evacuation Time is a simple escape-the-room experience where you have to escape a room with no obvious means of exit. Chapter 2: Outwit The Overseer Chapter 2: Outwit The Overseer takes place immediately after the first chapter. You must survive the night, and defeat the overseer, who has taken over the room you've been locked in. Chapter 3: Press the Switch Chapter 3: Press the Switch puts you right in the middle of the night after you've defeated the overseer. You must save your friends, who are being confined somewhere, and then find a means of escape. Chapter 4: Roll the Dice Chapter 4: Roll the Dice puts you in the middle of a rollercoaster, where you must find the means to escape before a wall comes crashing down on you. Chapter 5: Monsters in the Closet Chapter 5: Monsters in the Closet is the only chapter where you play from a third-person view. This is the chapter in which the additional puzzles of the game start. Chapter 6: Runaway Chapter 6: Runaway is the only chapter that takes place in a different kind of environment. You must find a means to escape a mystery-filled carnival, as strange, shocking, and surreal things start to happen. About The Game Components The game is available now on Steam and DRM-Free on BitTorrent. The game is a bare-bones horror experience, and like many such games it isn't exactly a pretty thing to look at. I've seen some of the other content that is available in the game and it

## What's new in America's Retribution Term 2:

I'm worried about what's going on. I guess you could say I'm worried about this latest development—the guy calling himself the Master Mind, how he got to the bastards before we did, and the, well, sample he left behind. So I wanted to talk to you." "You don't have to worry," I said quietly. "I'm not going to kill anybody." "But I do worry, son," Granddad said, a slight tremor in his voice. "That can't be healthy for either of us." THREE VERSIONS of the story appear in The Night List: the official version promulgated by Joseph Bruno and his cronies, the version given by Shayna, and the one Vincent Russo offered to the police. The latter is wrong so many ways it boggles the mind. "You want to give him a pat on the back for his sense of humor?" I ask James, who's downstairs at the computer. "He gets the strength of his convictions out of Saint Joseph, patron of lost causes and suicides; then he reads the Last Rites of Saint Eligius, patron of con artists and thieves, because he's off to a good start." "The reference in Vigil is much more profound. It's the name of a small river north of Prague. He has a typewriter and he writes it there. So what does that tell you?" "It tells me..." I hesitate as I give my answer, and James studies me closely. "I don't know. I wouldn't feel comfortable reading into it too much." "Maybe it's a Catholic symbol. Let's run a search on it. I'm curious." We raise our eyes from the computer screen, looking at the articles that have accumulated in the search results. Several of the top hits are listed as Nazism, but there are also some fairly recent samples that apparently refer to Bohemia. "Try the last paragraph—it's the one we're interested in." James's eyes—limpid, blue-green, and as treacherous as they are—are concentrated. He types. James's assistant, Tannis Fargis, greets him sarcastically when he enters the household. "Grow up, would you?" she snap-replies, "or at least quit making her forehead all raw." "Hey there, Tina," James says as he goes up
