. A Piece of the Action: The Politics of the Business Research Community. If you would like to be considered for employment, you may download the attached resume: . Business Analytics 2nd Edition Solutions Manual Introduction to Business Analytics By Richard M. Campbell . Practicing Graduate Research and Writing in Graduate Nursing Basic Business Statistics. Introduction - Basic Business Statistics 7th Edition by Charrin Tom Poulin .Q: How to set memory limit for each user in mysql? As we know memory_limit is not enforced for every user, if you think about scenarios where there are lots of users so it will take so much memory, so i want to know is there a way to define memory limit for each user? A: No, there is no way that you can set a different memory limit per user. However, you can use the --innodb_buffer_pool_size parameter to tweak the memory you allocate for the tables that are in the InnoDB buffer pool. Since this is MySQL 5.6, you can use the innodb_buffer_pool_size_pct_read_percentage and innodb_buffer_pool_size_pct_write_percentage parameters to adjust the relative sizes of the read and write buffers. More information about the specific parameter values for the innodb_buffer_pool_size are here: Q: Using Bit-Bucket API to make an API call for a private repository I'm trying to connect to a private repository using the Bit-Bucket API and I get the following error: { "error": "authorization_rejected", "status": 403 } I didn't set any permissions for this repo and I can't find anything in the docs to change. Here's the code I'm using:

```
$params = array("method" => "sync", "access_token" => "MY_ACCESS_TOKEN"); $ch = curl_init(); curl_setopt($ch, CURLOPT_URL, "0cc13bf012
```
