- 
- Thank You for downloading Voice of the Citizens -.NET Voice Hotkey App. It allows you to simply listen to what is in your micro and record what you hear on the computer. Sometimes it may be hard to hear what they say in front of you, which is why the app has the "Laughing" option, where the computer will try to simulate laughing after it hears something funny on the microphone, other times it is just that you want to record the more important things, which is what it does. You can even choose to record just one side of the conversation.

Another really useful feature of the app is the ability to send the voice over the internet. You will need an account with voice chat software like Skype or one of the many other Internet Messaging software, like Windows Live Messenger, Yahoo messenger, AOL AIM, Google Talk, MicroSoft Live Messenger, AIM, Jabber, Trillian, etc, etc. You will need to review each of these sites to see which one is free for you to use.
